

TEAM SPORTS

Dartfish software gives you a complete solution that integrates the power of video into your sports program or organization. Use Dartfish video software to edit and analyze game film and to improve the performance of your team. Dartfish software can be used for:

- Skill Development
- Player Development
- Game Strategy
- Scouting and Recruiting
- Testing and Assessment
- Camps and Clinics
- Injury Rehabilitation

Key Features:

- Import Video (Camera, External HDD, DVD, Memory Stick)
- Video Management (Library)
- Remote Control
- Real-Time, Instant Feedback During Training (In-The-Action)
- Advanced Analysis Tools
- Tagging/Game Editing feature for bookmarking actions/plays
- Statistical Analysis Tools
- Match Analysis & Reporting Tools
- Patented SimulCam™ (Video Overlay) and StroMotion™ (Image Cloning)
- Advanced Sharing (Email, FTP or Dartfish.tv Media Platform)

Key Benefits:

Communicate:

- Improve communication with your team and players by bringing them face-to-face with their own performances.
- Create team highlight videos or prepare video scouting playlists to present in team meetings.
- Present powerful performance reviews and scouting data to your team and players.
- Make it easier for players to understand your coaching comments, the corrections and adjustments they need to make and the objectives you want them to reach.

Analyze:

- Break down game film faster and present key game clips to your team.
- Capture and tag entire games to your computer live or after the action.
- Easily organize games by categorizing video with personal attributes to create an index of events.
- Quickly retrieve specific game actions.
- Instantly get statistics from the index you created.
- Make tactical analyses of specific game situations or technical analyses of players with user-friendly tools.

Share:

- Make video content available to anyone, anywhere, anytime.
- Distribute your videos, analyses and multimedia presentations to players on CD, DVD, by email, or through your exclusive channel on the Dartfish.tv video sharing web platform.
- Create an online community and give video access to everyone on your team via Dartfish.tv.
