

INDIVIDUAL SPORTS

Dartfish software gives you a complete solution that integrates the power of video into your sports program, instructional lessons, or organization. Use Dartfish video software to teach specific sport skills and to improve the performance of your athletes. Dartfish software can be used for:

- Skill Development
- Player Development
- Game Strategy
- Scouting and Recruiting
- Testing and Assessment
- Camps and Clinics
- Injury Rehabilitation

Key Features:

- Import Video (Camera, External HDD, DVD, Memory Stick)
- Video Management (Library)
- Remote Control
- Real-Time, Instant Feedback During Training (In-The-Action)
- Advanced Analysis Tools
- Tagging/Game Editing feature for bookmarking actions/plays
- Statistical Analysis Tools
- Match Analysis & Reporting Tools
- Patented SimulCam™ (Video Overlay) and StroMotion™ (Image Cloning)
- Advanced Sharing (Email, FTP or Dartfish.tv Media Platform)

Key Benefits:

Communicate:

- Improve communication with athletes by bringing them face-to-face with their own performances.
- Easily integrate video during training and give athletes instant visual feedback.
- Make it easier for athletes to understand the corrections and adjustments they need to make by showing them video of their technique and mechanics during practice.
- Improve and accelerate the learning process for all your athletes.

Analyze:

- Use your expertise to enhance video clips by using powerful drawing and measurement tools.
- Highlight techniques and movements by selecting key moments on the video.
- Compare video of your athletes with reference clips.
- Categorize your videos with personal attributes and create an index of events (e.g. serve, set, point).
- Easily retrieve specific actions from the index you created and make tactical and statistical analyses.

Share:

- Make video content available to anyone, anywhere, anytime.
- Distribute your videos, analyses and multimedia presentations to athletes and staff on CD, DVD, by email, or through your exclusive channel on the Dartfish.tv video sharing web platform.
- Create an online community and give video access to everyone in your organization via Dartfish.tv.
