

For Baseball

A Complete Solution from Skill to Game Analysis

COMMUNICATE

Develop Each Individual's Skill Set to Help Create Team Success

- > Players learn correct techniques with **immediate feedback** without disrupting practice sessions
- > Teach **skills & drills** step-by-step for peak performance
- > Utilize our **reference library** for improved understanding of skills and correction of techniques
- > Track a player's progress over time

ANALYZE

Optimize Your Game Analysis and Scouting Practices with Ease

- > Capture an entire game or target specific actions of a player, hitting, pitching, fielding; transfer to computer **for live or post-game analysis**
- > **Scout your opponents'** specific strengths and weaknesses
- > Review your **team's or players'** performances quickly and effectively
- > Develop **seamless** process from game to skill analysis

SHARE

Share Detailed Feedback and Game Strategies with Others

- > Develop off-season workouts for players and teams to send via **email or Web**: create your own **CDs or computer DVDs**
- > Create **scouting reports** for coaches' meetings, saving time and maximizing practices for a winning season
- > Help with **recruiting**
- > Generate additional income at **camps** and **clinics** with customized media

Video-based solution to enhance athletes' understanding and improve performance

FUNCTION OVERVIEW

Use During Sessions

- > Connect with either 1 or 2 video cameras
- > See instant on-screen display
- > Make direct comparisons with a reference video during the session
- > Operate the software by remote control
- > Use drawing tools even in full-screen mode

Maximize Analysis with Advanced Tools

- > Draw "freehand," adding lines and curves straight to the video
- > Add commentaries, titles and notes
- > Magnify areas of interest
- > Track movements and measure angles and distances

Tag or Index an Entire Game

- > Customize your own logging/tagging panel based on your specific criteria and preferences
- > Easily tag your game
- > Quickly retrieve annotated events to replay or make statistical analysis
- > Add your expertise to the video with in-depth analysis

Create Interactive Media of Your Analysis or Drills

- > Compose multimedia files, integrating video, key positions, drawings, audio commentaries and text
- > Print hand-outs with ease for practice and game use

Create Highlight Reels and Export to Any Media Format

- > Share your coaching expertise with your staff, your team and individuals
- > Export videos and multimedia files to CDs, email or the Web
- > Allow your players to review your analysis - any time, anywhere
